M. suggests, the freeman who persues any other course fails to country and the state, he practically does the worst. To illustrate this : let Mr. Van Buren or Mr. Calhoun and Mr. Clay be the candidates for the next Presidency, between whom the election will lie. Let us suppose that neither is the preference of the freeme of this state above all others, yet the electon of Mr. Clay is far to be preferred to that of Mr. Van Buren or Mr. Calhoun, as Mr. Clay goes for the policy of the Free States-for Protection, a sound Currency and Distribution, and both of the others against all these. In this state of things there are four or five thousand Whigs who do not like Mr. Clay, either because he is a slave-holder or for any other reason, and money in all directions which will benefit they vote for a third candidate. The result is, that Calhoun or Van Buren, with his proslavery policy, and his utter hos inty to al which the Whigs deem good, gets the vote of Vermout by a plurality; and gets it culars of which, as we have heard them it absolutely by means of third party votes. FANATICISM .- The last Belfast (Me.) lignal gives a new feature to the fanaticism of the Millerites. It says; "On Saturday last by a flag suspended upon a liberty pole in front of Mr. Jones S. At 8 o'clock seven canons were fired, representing the seven thunders that uttered their voices upon the opening of the seals. The bugle and pine trees set out for the occasion in front of the house. Mr. Barrett is an honest and hard-laboring man, and seems to be insane on no subject but religion. #### LETTER FROM MR. CLAY.

We find in the Nashville Banner of the 9th instant the following letter from Mr. Clay, addressed to the editor of the Tennes. see Agriculturist. It is justly characterized as expressing, in a condensed form, the views of public policy in regard to the great interests of the country, to the maintenance and diffusion of which so many of the illustrious orator's greatest speeches have been devoted. It breathes also the apirit of elightened benevolence and comprehensive patriotism which distinguish his private and public character .- Balt. Amer.

Yes-sure enough-why are not the farers more interested than all other classes in the preservation of the tariff? Every man, woman and child engaged in manufactures in this country, consumes every year many dollars worth of the farmers products. "True enough sir, I so understand it, and so do my brethren who have signed the petition, but the rascally Whigs have it all their own way in our State by being friends of protection, and we thought to make a shift for a triffe of capital, by getting up this petition, and having it published as a Democratic measure.
